which they were apparently soliciting men to enter, said picture representing the dress, attitude, pose and actions of prostitutes — (ending with) "all designed to corrupt the morals of youth."

That was the complaint filed in the corporation court. It relates to a moving picture actors were making in El Paso Tuesday. That was the complaint that got manager London and the "movie" people arrested Wednesday at noon. The detectives arrested the actors at the union station just as they drove up in an automobile, preparatory to enacting the last scenes of the El Paso end of the three reel "white slave" picture.

Delgado and Woods were rushed to the scene. "The place was made to look like like line," said Delgado. "The fences were torn down. In the doorways of the rooms women were posed. They were wearing dresses that were cut low. The moving picture operator was in an automobile which kept going up and down the street—some of the scenes he took on the ground. When everything was ready, the operator started his machine and the moving picture actors started strolling by the rooms. It was just like Broadway; that's all I can tell you."

Negroes and Mexicans live in the section where the scene for the "movie" was laid. The negroes, Billy Smith said made the complaint to him and the Mexicans called for Delgado. The detectives arrested the actors at the union station just as they drove up in an automobile, preparatory to enacting the last scenes of the El Paso and of the three reel "white slave" picture. The actors were made up and getting out of the automobile to go through the actions of the scenario when the detectives served the war-rants on them. The moving picture operator was still in the atomobile. He

making no move toward Juarez or the Mexican Central. No troops have been sent from Juarez or Chihuahua to ascertain his whereabouts.

There is more behind the failure to run trains out of Juarez than the washouts at Laguna, although the latter is the cause given by officials for not sending out trains. Attempts have been made to move soldiers down the line, but they have skilfully avoided being sent.

been made to move soldiers down the line, but they have skilfully avoided being sent.

According to Mexican women who frequented the railroad yards Tuesday evening, soldiers were loaded on the trains several times, but when the officers went to get more men, those whom they had left on the trains quit and hurried uptown to celebrate. Several were arrested and their arms taken from them, but even this measure failed to secure a trainload of the soldiers. They do not want to go south, and while they have not been mutinous, they have avoided making a trip by skipping away from the train.

Officials in Juarez state that they do not know when a train will leave for the south, nor do they know when one will come from Chihuahua, However, in the city of Chihuahua the railroad is advertising that a train will leave for the north on Thursday without an escort, and carrying only passengers. It is not believed in Juarez that it can make the trip, as the serious washout at Laguma has not been repaired, and the road is in very bad condition.

Small bands of rebels are reported

Small bands of rebels are reported along the line between Villa Ahumada and Mociezuma, but they have done no serious damage to the railroad.

Soldiers Refuse to Be Sent Chairman Glass Says Purpose Is to Divorce Banking and Speculation.

> DEBATE ON MEASURE OPENS IN THE HOUSE

ASHINGTON, D. C., Sept. 10,-The administration currency bill today started on its devious way to the statute books, when chairman Glass, of the house banking committee, and one of the fathers of the measure, opened the currency debate in the house.

measure, opened the currency debate in the house.

Mr. Glass replied at length to the criticisms that the federal reserve board, placed by the bill in control of the proposed finnancial system, would with its wide powers, be subject to political influences.

No Politics, Says Glass.

"There is no politics in this matter; there can be none. It is my earnest conviction, based on long and serious reflection that no man can conceive, as none has yet pointed out how any part of this system can be perverted to political uses." said he.

"I happened to be present when an eminent banker suggested such a possibility to the present occupant of the executive chair, and heard this banker value chair, and heard this banker value chair, and heard this banker value chair, and heard that no man would ever be found who would be willing to imperil his reputation or tarnish his fame by so flagrant a prostitution of his high office.

Fight Stock Gambling.

"The whole fight of the great bankers is to drive us from our firm resolve to break down the artificial connection between the banking business of this country and the stock speculative operations in the money centers. The avowed purpose of this bill is to cure this evil.

"They do not want existing arrangements disturbed; they desire to perpetuate a fictitious, soscientific system, sanctioned by law, but condemned by experience and bitterly offensive to the American people—a system which everybody knows encourages and promotes the worst description of stock gambling."
